

2017 Medicaid Provider Rate Review Analysis Report

Physician Services, Surgery, and Anesthesia

Appendix B – Rates Data Book

This appendix includes a detailed list of service codes, Colorado Medicaid rates, benchmark rates, and payment percentages based on place of service. It also contains two scatterplots for each surgery service, comparing Colorado rates to Medicare's physician facility rates and Medicare's physician non-facility rates. Appendix B does not contain any assertions or conclusions on the sufficiency of Medicaid rates to provide adequate access to care.

Policy & Financing

Physician Services – Rate Tables

This section contains tables, sorted by total paid amount showing the service code, Colorado Medicaid’s rate, the benchmark rates, and a breakdown of dollars paid based on place of service. When necessary, units were set at 30 for PHI purposes and corresponding information was set to zero. Disparities in rates between payers do not necessarily reflect payment reasonableness. These data points are shown to inform the process and are intended to be analyzed in conjunction to the access and utilization components included in the 2017 Medicaid Provider Rate Review Analysis Report.

For physician services, most benchmark rates refer to Medicare non-facility rates. Rates with (*) refer to the average of other states rates. Other states used for benchmark are: Oklahoma, Nebraska, Arizona, Wyoming and Oregon. For how these states were selected, refer to the analysis report.

Surgery – Rate Tables

This section contains tables, sorted by total paid amount, for each surgery service under review, and includes the service code, Colorado Medicaid’s rate, the benchmark rates, and a breakdown of dollars and percentages paid to a facility or non-facility place of service. When utilization of specific services was lower than 30 units, the units were set at 30 for PHI purposes and corresponding information was set to zero. Disparities in rates between payers do not necessarily reflect payment reasonableness. These data points are shown to inform the process and are intended to be analyzed in conjunction to the access and utilization components included in the 2017 Medicaid Provider Rate Review Analysis Report.

Except for Anesthesia services for which Medicare maintains a separate fee schedule, most benchmark rates refer to Medicare non-facility rates, Medicare facility rates and place of service specific Medicare rates. Rates with (*) refer to the average of other states rates. Other states used for benchmark are: Oklahoma, Nebraska, Arizona, Wyoming and Oregon. For how these states were selected, refer to the analysis report.

Digestive Systems

Surgery - Rate Ratio Scatter Plots

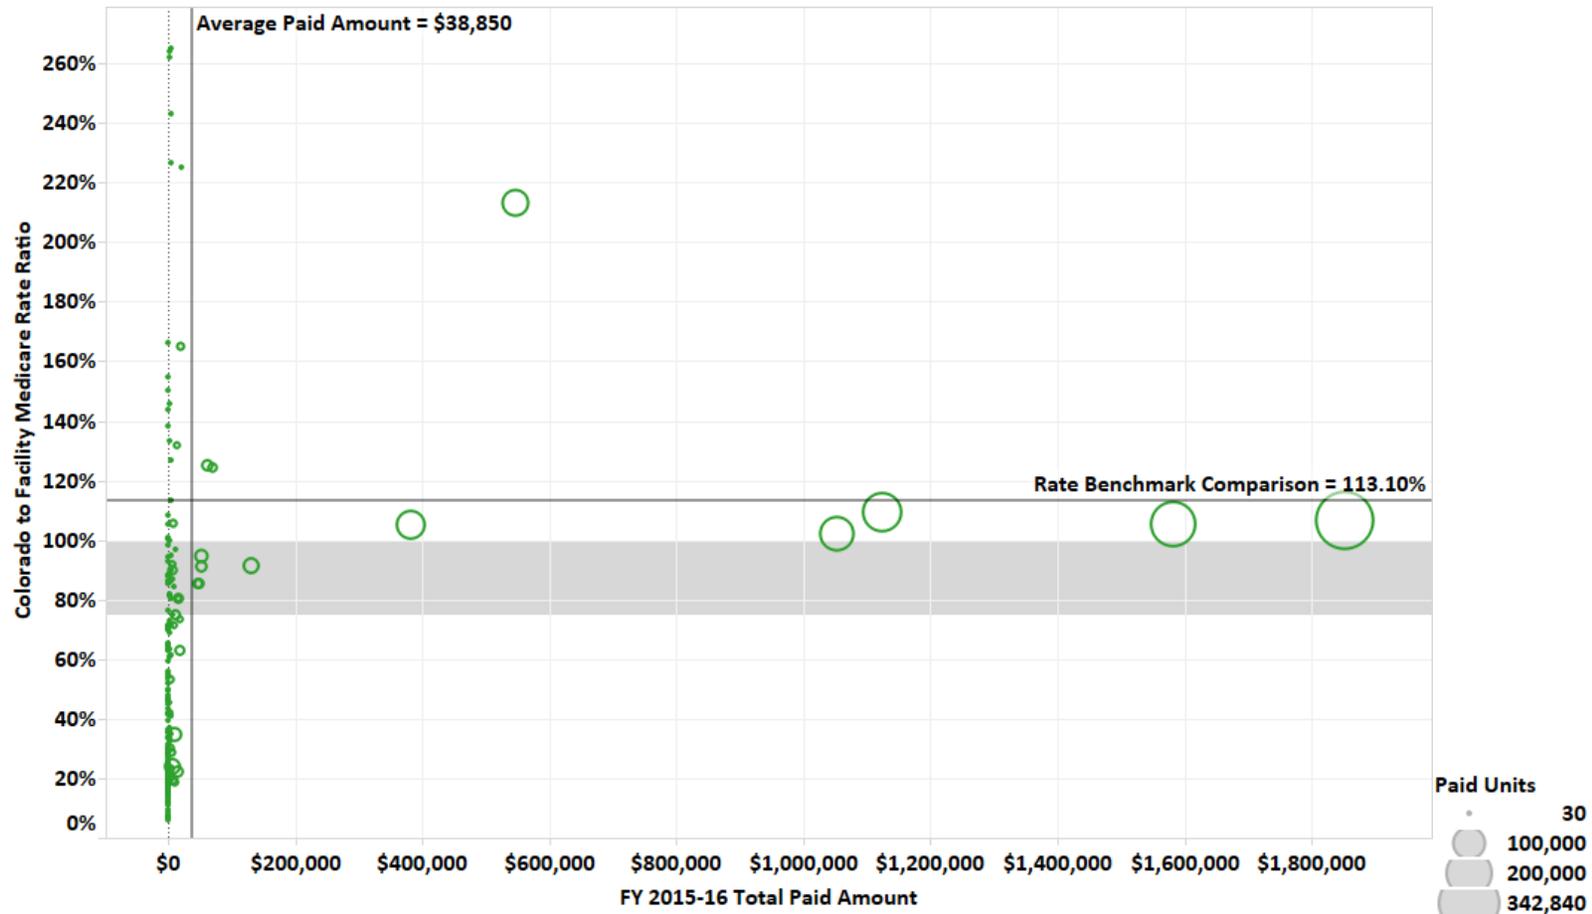

The rate comparison analysis is based on claims data for FY 2015-16 (July 1, 2015 – June 30, 2016). The following fourteen scatterplots are for each surgery service included in this report. For each service, there are two scatterplots, the first shows the rate ratio to the Medicare physician facility rate and the second shows the rate ratio to the Medicare physician non-facility rate. Each chart includes:

- Vertical axis (y-axis) – the rate ratio of Health First Colorado rates to the Medicare non-facility rates for each code (i.e., Health First Colorado rates as a percentage of Medicare’s non-facility rates). The dark horizontal line represents what the Department pays, on average, as a percent of the corresponding Medicare non-facility rate, also referred to as the benchmark percent.
- Horizontal axis (x-axis) – the total paid amount for each code. The dark vertical line represents the average paid amount.
- Circles – each circle represents a specific code.
 - The location of the circle along the x-axis represents the total paid amount for that code.
 - The location of the circle along the y-axis represents that code’s rate ratio to Medicare.
 - The size of the circle represents paid units, which is a proxy for that code’s utilization.

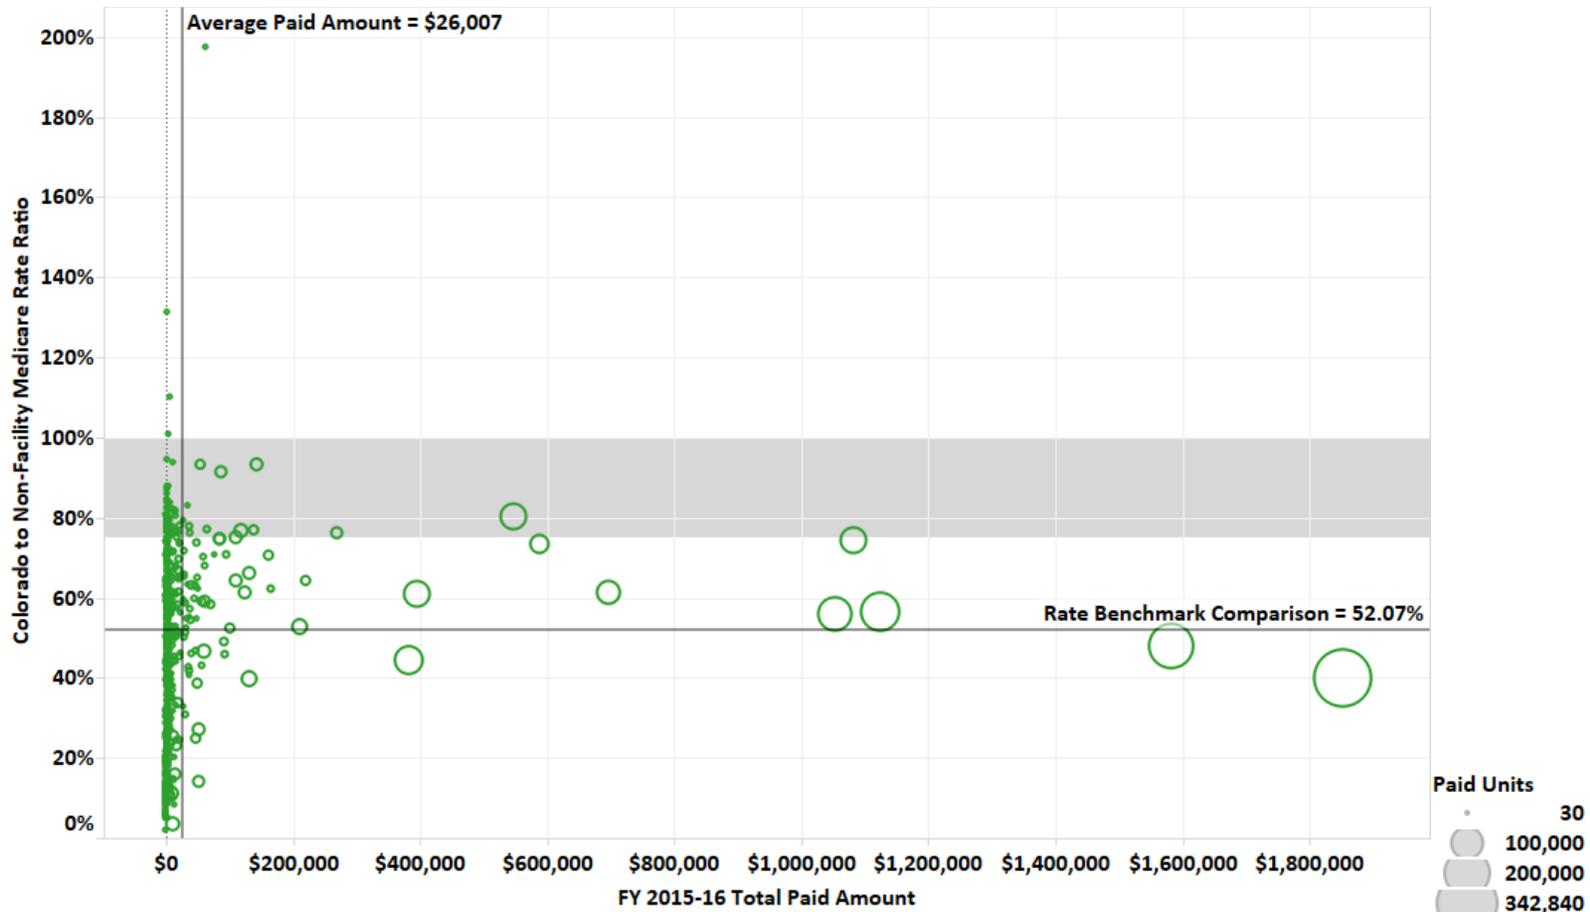

Disparities in rates between payers do not necessarily reflect payment reasonableness. These data points are shown to inform the process and are intended to be analyzed in conjunction to the access and utilization components included in the 2017 Medicaid Provider Rate Review Analysis Report.

Digestive Systems

Colorado Medicaid to Medicare's facility rate for digestive surgeries.

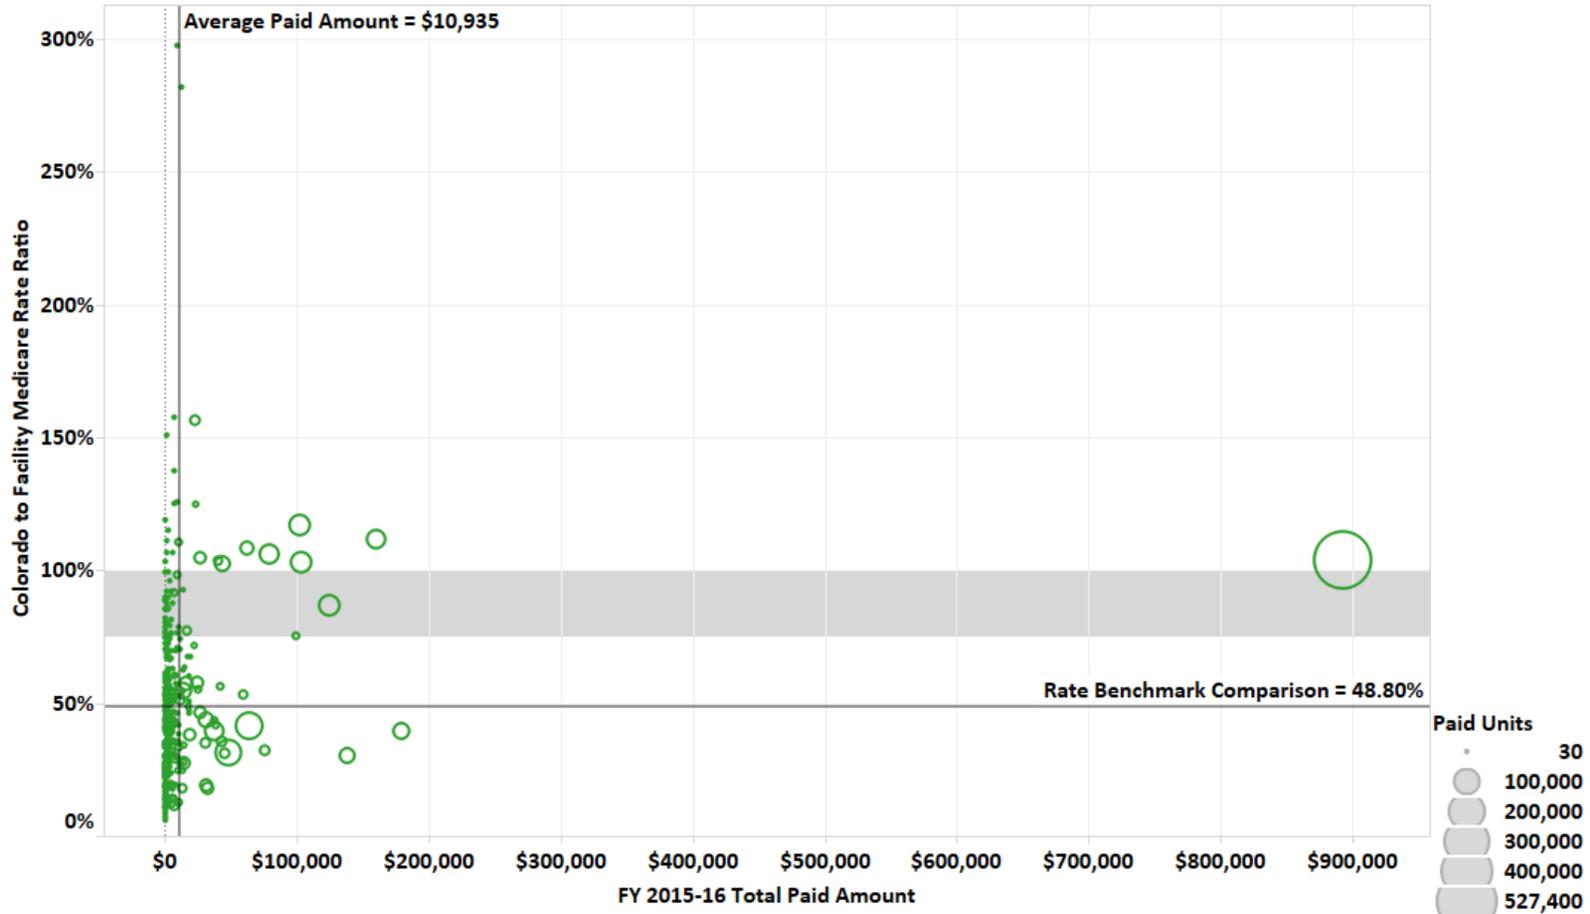

Colorado Medicaid to Medicare's non-facility rates for digestive surgeries.

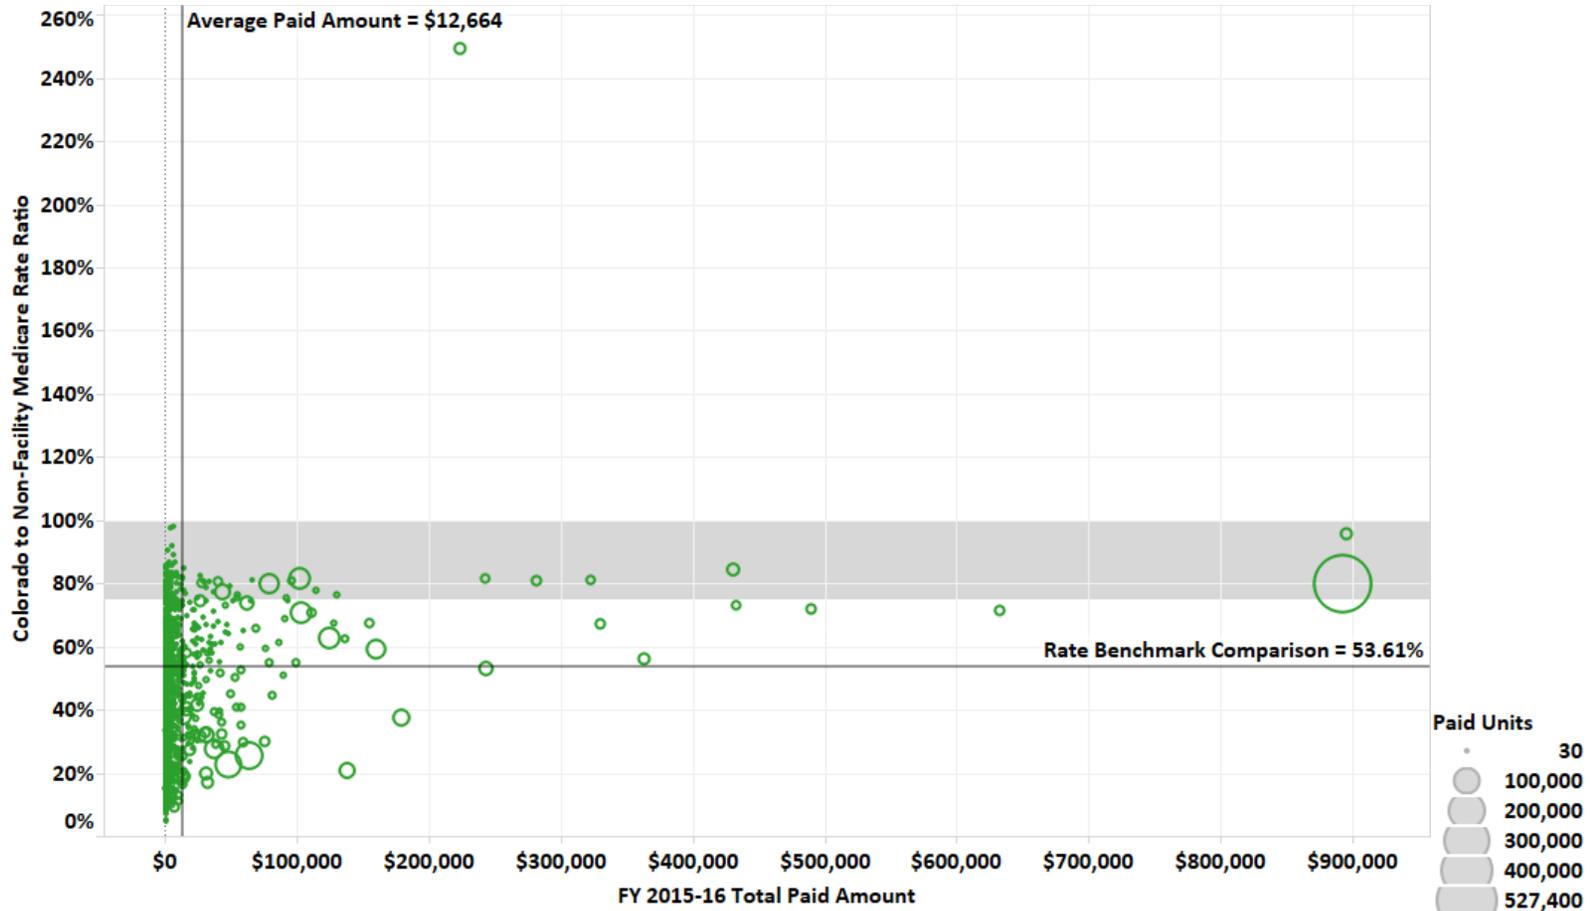

Musculoskeletal Systems

Colorado Medicaid to Medicare's facility rate for musculoskeletal surgeries.

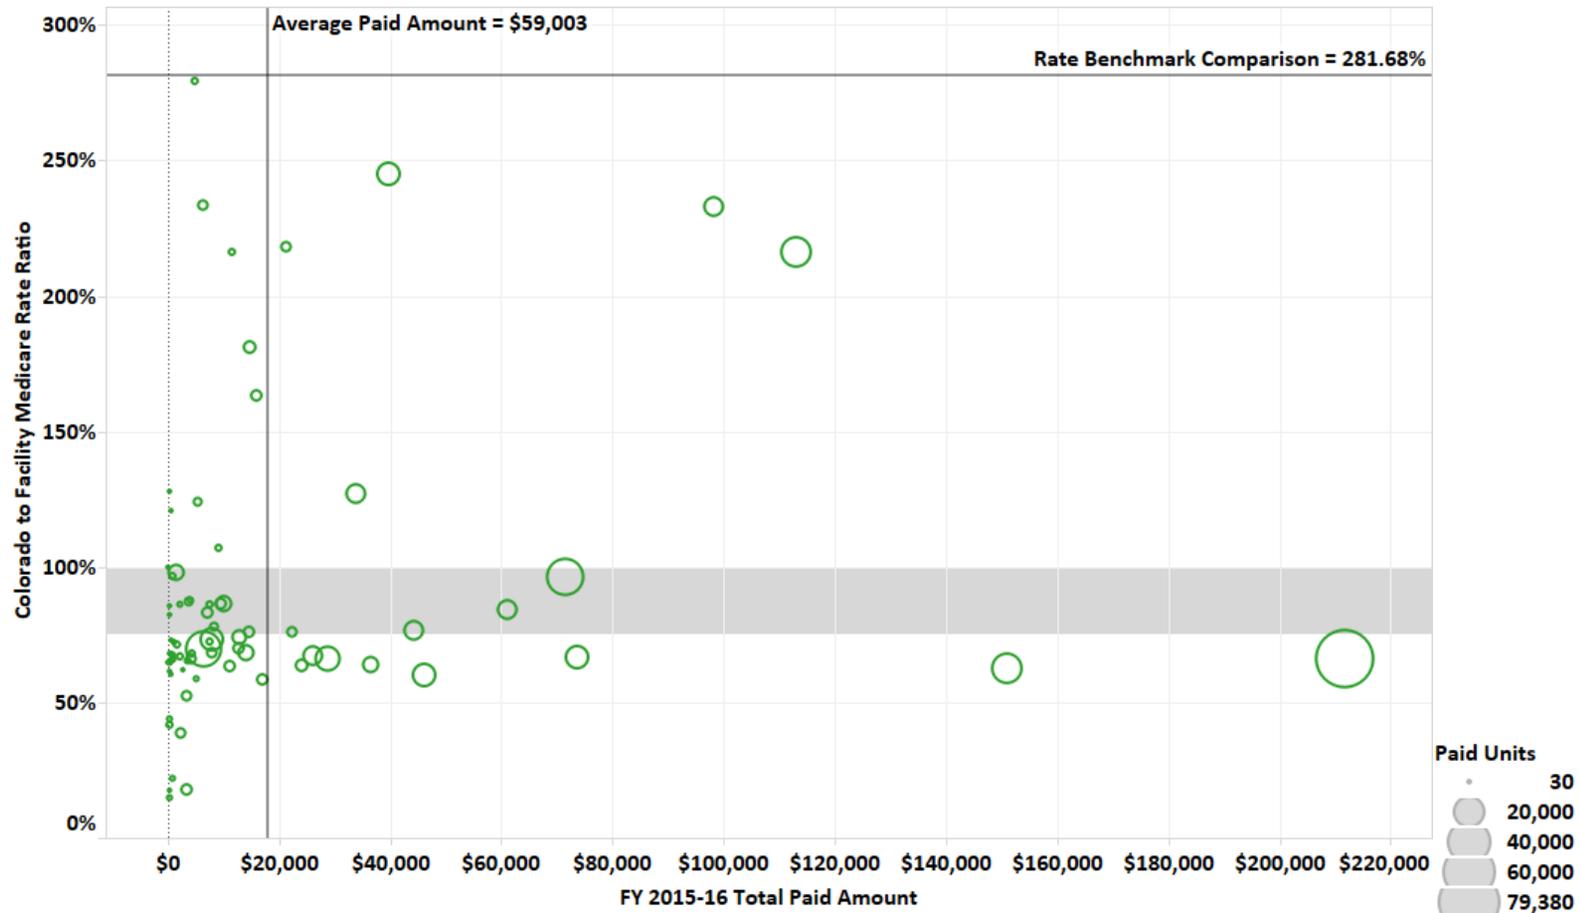

Colorado Medicaid to Medicare's non-facility rates for musculoskeletal surgeries.

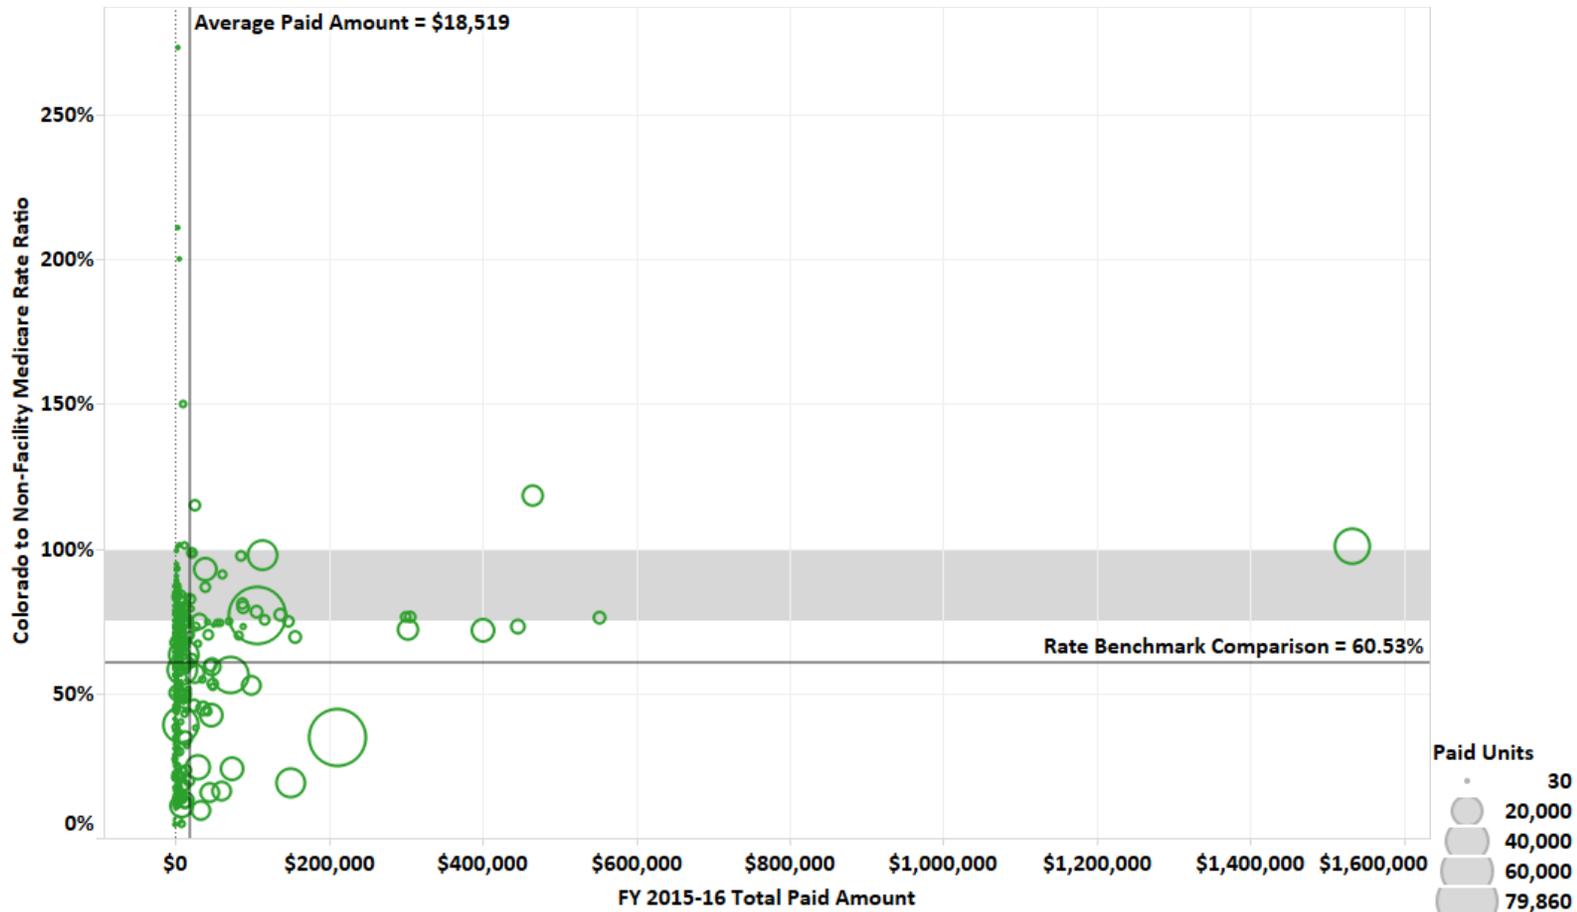

Cardiovascular Systems

Colorado Medicaid to Medicare's facility rate for cardiovascular surgeries.

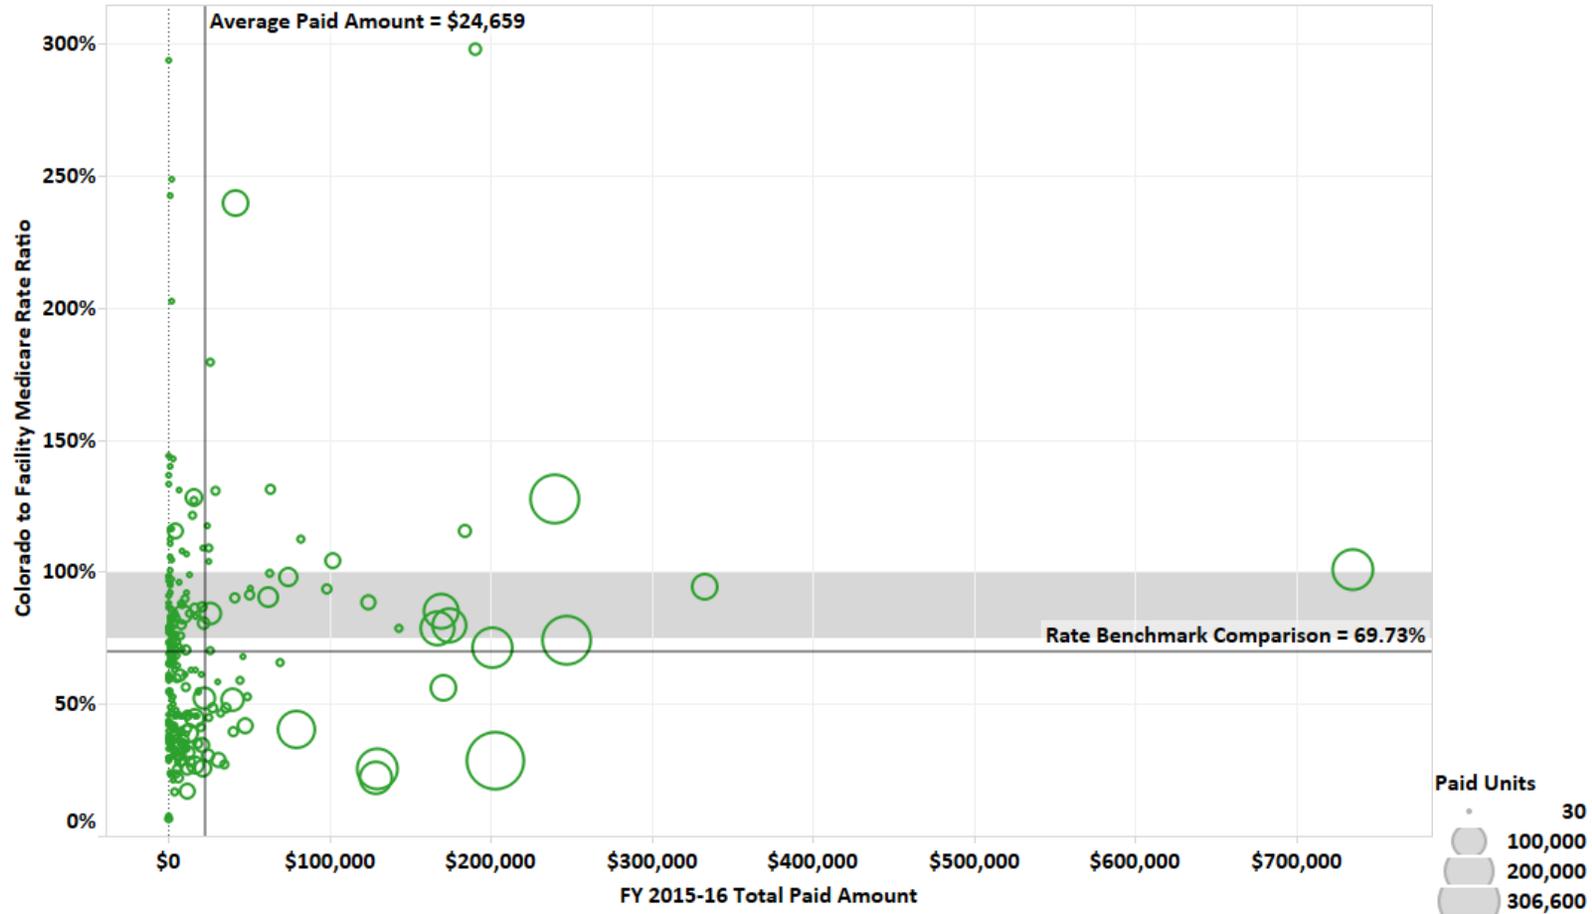

Colorado Medicaid to Medicare's non-facility rates for cardiovascular surgeries.

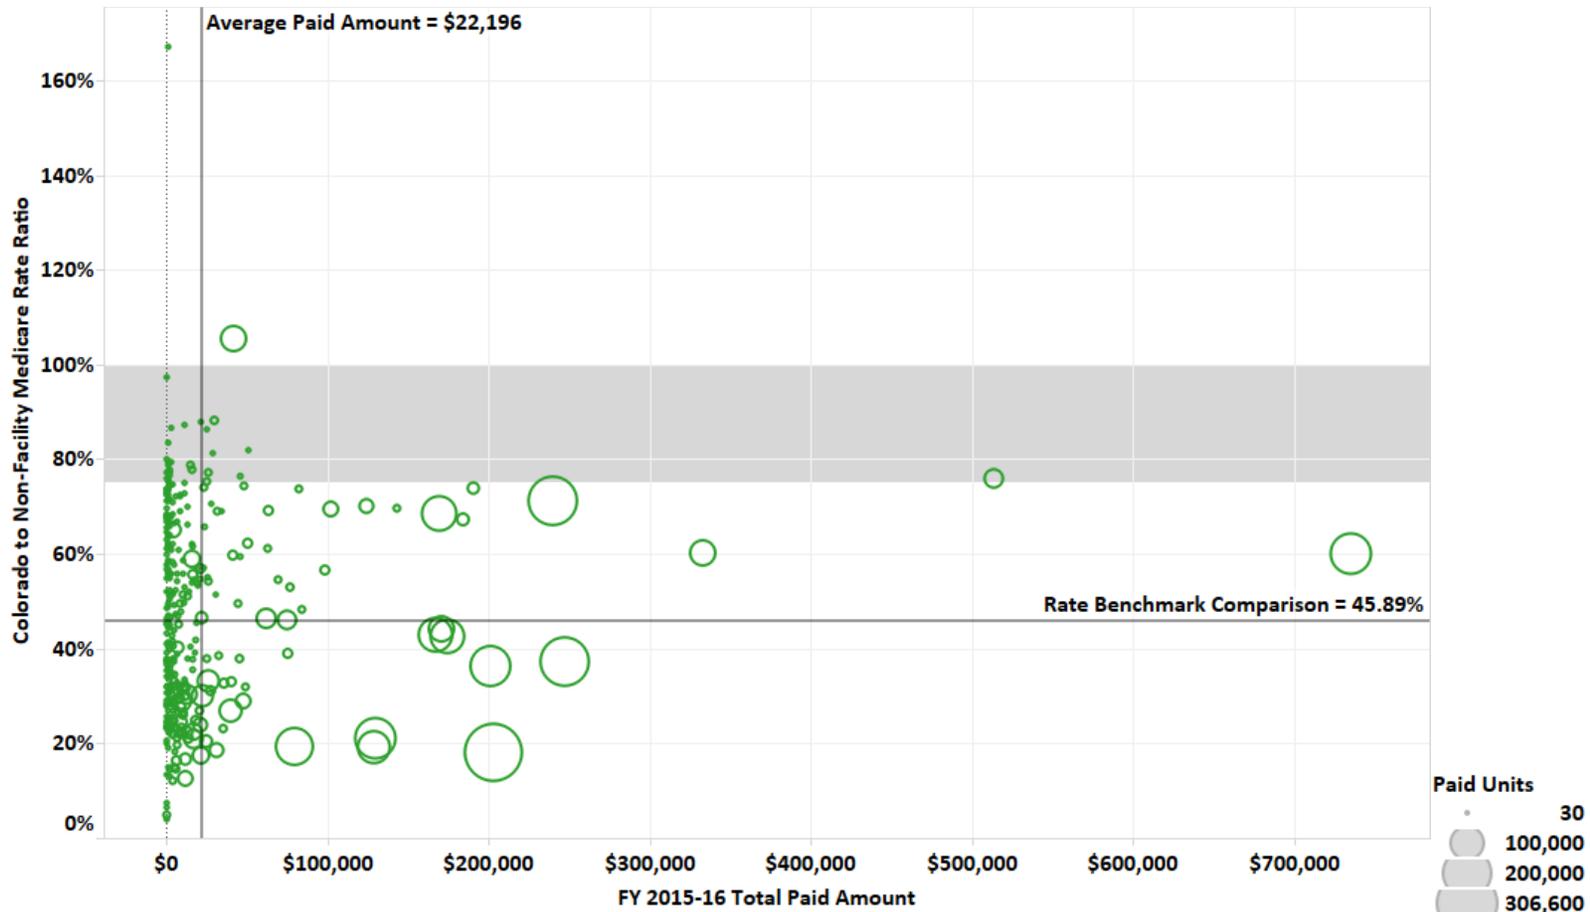

Integumentary Systems

Colorado Medicaid to Medicare's facility rate for integumentary surgeries.

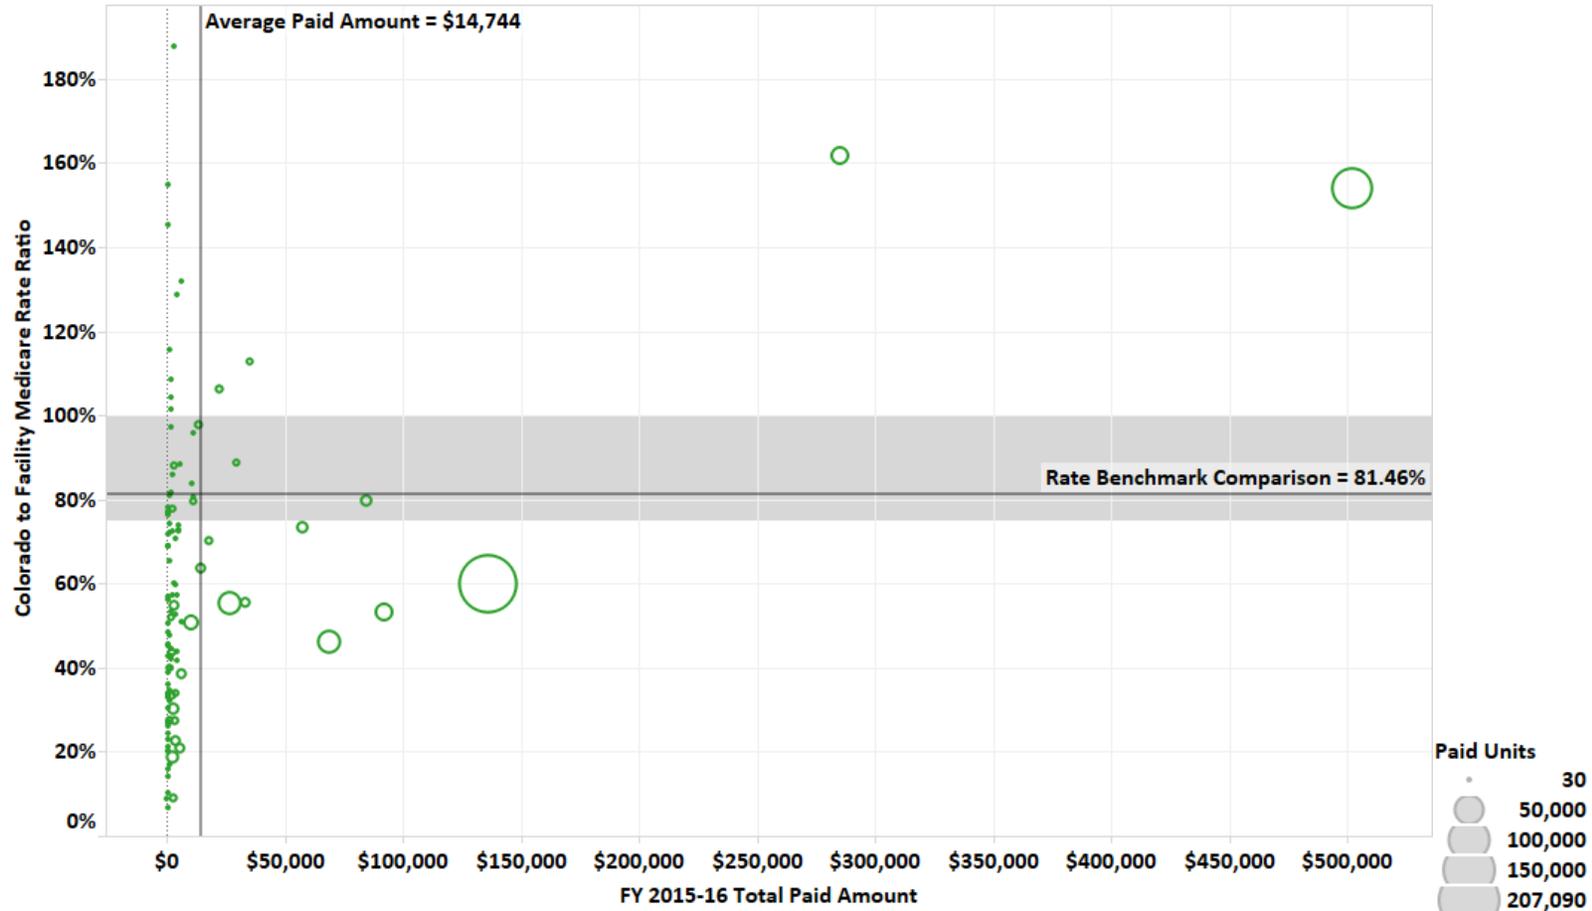

Colorado Medicaid to Medicare's non-facility rates for integumentary surgeries.

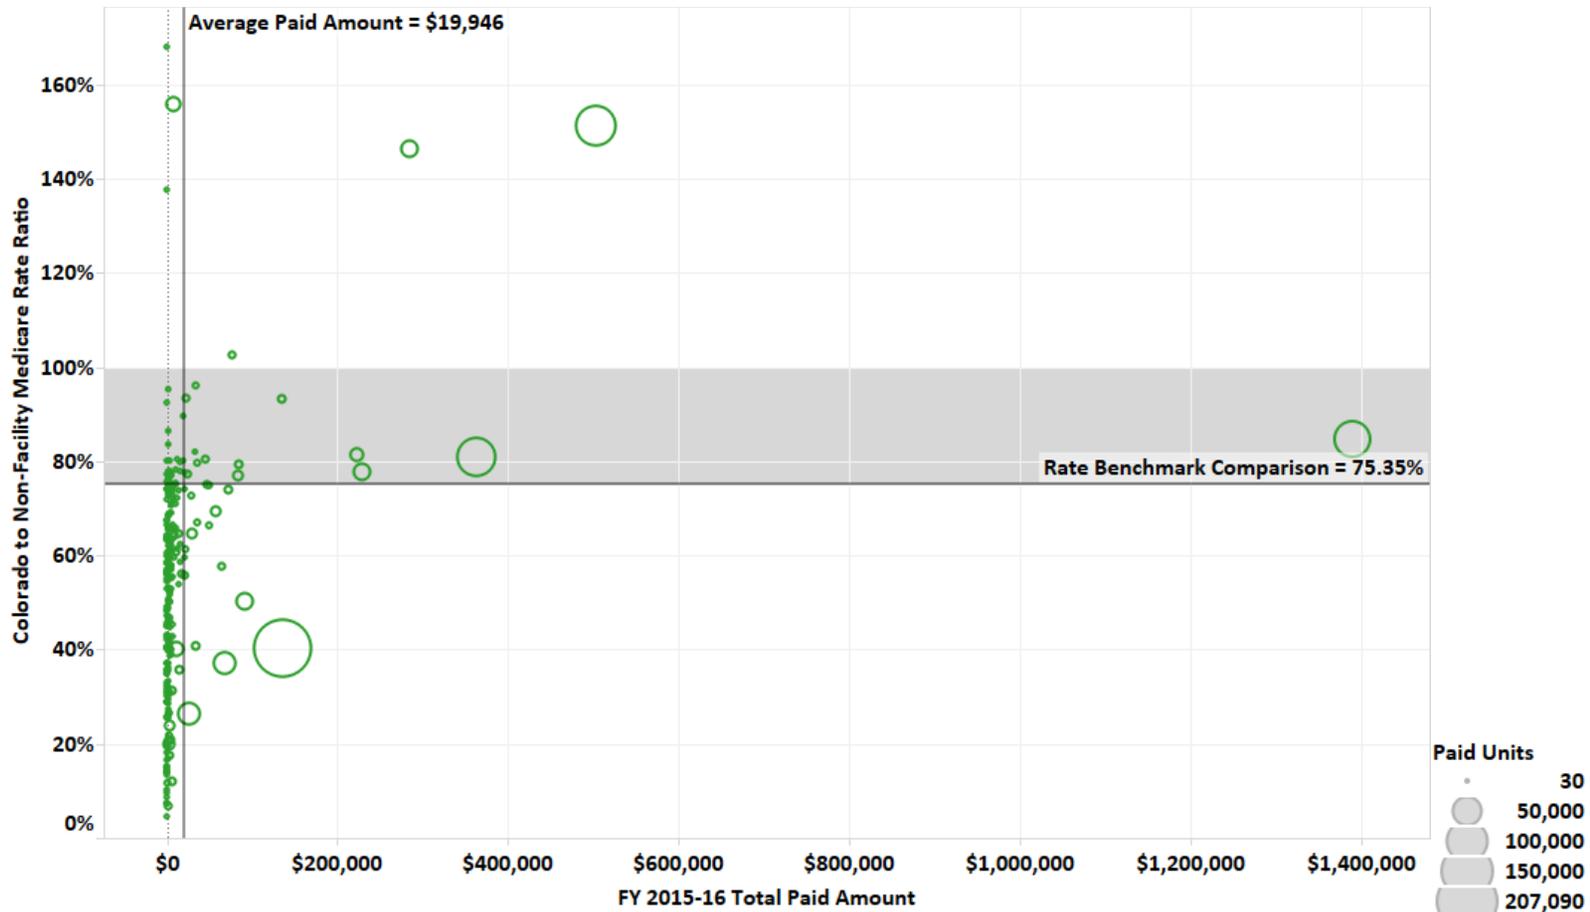

Eye and Auditory Systems

Colorado Medicaid to Medicare's facility rate for eye and auditory surgeries.

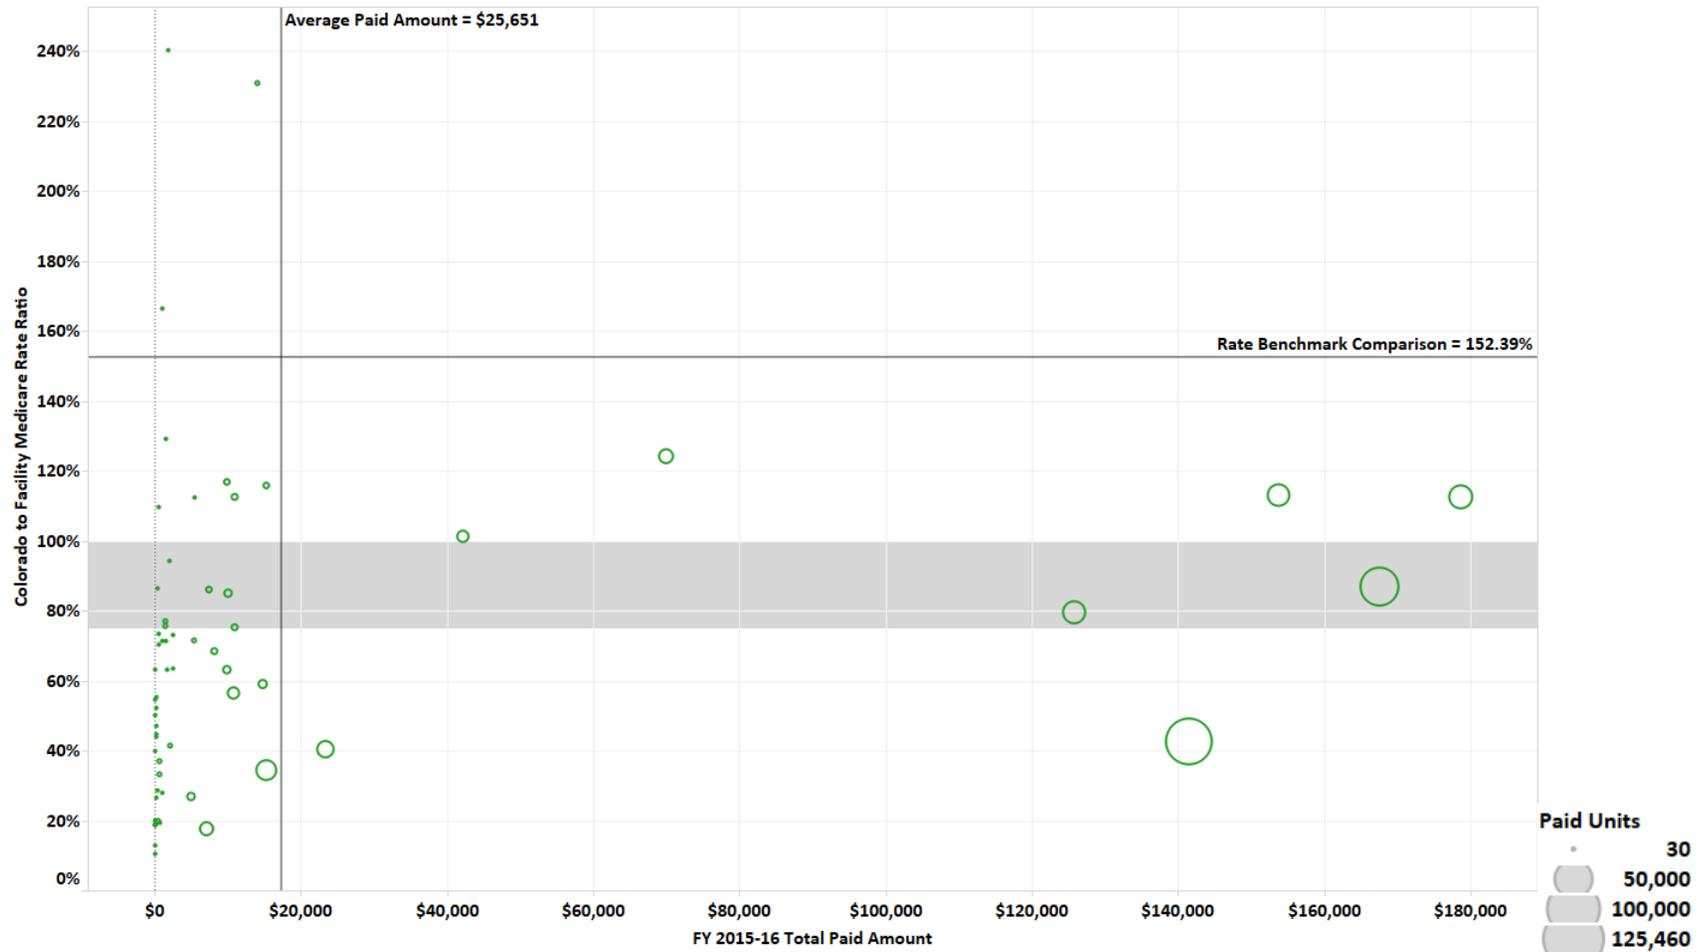

Colorado Medicaid to Medicare's non-facility rates for eye and auditory surgeries.

Respiratory Systems

Colorado Medicaid to Medicare's facility rate for respiratory surgeries.

Colorado Medicaid to Medicare's non-facility rates for respiratory surgeries.
